

Supporting patients with ALK Positive lung cancer

Supporting each other

ALK Positive UK is a registered charity established by a group of patients and carers. Our purposes are to provide support and advocacy and to improve the overall survival and quality of life of ALK Positive lung cancer patients across the United Kingdom.

We are recognised by the National Institute for Health and Care Excellence (NICE) as an organisation to be consulted on new ALK positive treatments.

We have an active Facebook group for patients, family and carers. We share information on Twitter and we hold regular meetings in the UK during the year.

Here for patients with ALK Positive lung cancer

We Are Better Together

Here at ALK Positive UK, we are a community from different backgrounds and walks of life - each with our own individual story.

We do not offer medical advice but we have an active Facebook Group for patients, family and carers where experiences can be shared (see link below). We hold regular meetings in the UK and also share information on Twitter and LinkedIn.

If you are living in the UK with ALK-positive lung cancer or if a member of your family or a close friend is, a warm welcome awaits you.
